

AWARDS COMMITTEE REPORT

If you haven't already nominated someone for a Michigan Chapter SWCS award, here are some reasons to consider it.

- We know folks deserve the recognition
 - Soil and Water Conservation is a small, but dedicated community. We have amazing colleagues doing fantastic work. The outcomes of our efforts are often long term and hard to measure with a “completed checkbox”. That incremental work is meaningful but easy to overlook. We should help raise awareness of the great work folks are doing.
- It shows others that conservation efforts matter and are being noticed.
 - Celebrating recognition helps raise awareness of the work being done in Michigan in Soil and Water Conservation
- It's fun to sing about unsung efforts
 - Spotlighting great work just feels good.
- It's simple
 - Our nomination form is not super complex. Just share why you think a nominee is deserving.
 - Find out how to nominate by hitting our [website](#)!

Sarah Ehinger, Chair
