

# COVER CROP WORKSHOP 2

## Incorporating Principles of Regenerative Agriculture to Make My Farm More Resilient and Successful

MSU Extension and Tuscola Conservation District invite you to Year Two of a hands-on workshop held at the Saginaw Valley Research and Extension Center, supported from the Michigan Department of Agriculture and Rural Development and the Soil and Water Conservation Society. This interactive event is designed for row crop and vegetable producers, both conventional and organic, as well as anyone interested in learning more about cover crops, regenerative agriculture and soil health. The event is **FREE**, but registration is required.

### Agenda

- 1:30 pm Registration & Refreshments
- 2:00 pm Zachary Hayden, MSU, Nutrient management with cover crops: Lessons from vegetable systems
- 3:00 pm Field Presentations focusing on soil health, led by NRCS & MDARD field staff and MSU Extension Educator
- 5:00 pm Dinner
- 6:00 pm Christine Charles, MSU Extension, Soil health testing: Options and Applications
